Driving
Pilot Assist
Steering assist
Pilot Assist with steering assist turned off is equivalent to adaptive cruise control
Lane change assist
Provides steering assistance for lane changes
Curve speed assist
Adapts speed ahead of known road features such as bends and roundabouts
Prevent overtaking on the right
Avoid overtaking vehicles in the left-hand lane going faster than 85 km/h
Adapt to speed limit
Suggests new speed when road speed limit changes
Time interval to vehicle ahead
Short
Medium
Long
Intelligent speed assist
Intervenes when exceeding the speed limit. It can be turned off temporarily in the centre display. Default sound alerts can be replaced with adaptive pedal response.
